HEALTHCARE PROVIDER SEMINAR

February 3, 2015

Dear Healthcare Provider:

There have been a number of changes to the Delaware Workers' Compensation Fee Schedule that I wanted to make sure you were aware of.

One of the changes is that there are now itemized fee schedules for hospital inpatient, outpatient, and ambulatory surgery centers. The schedule for professional services is also significantly different than previous versions.

A mandate of House Bill 373, which was signed into law in July 2014, has also gone into effect as of January 31, 2015. This mandate establishes a Medicare relative value based fee schedule, which would use Delaware-specific geographically adjusted factors, in an effort to reduce aggregate workers' compensation medical expenses by 20% in the first year.

A copy of the language for House Bill 373 can be viewed here: [House Bill 373](#)

The newly revised Fee Schedule can be accessed by clicking here: [FEE SCHEDULE](#) (On the left hand side column, select "Effective January 31, 2015" under the "Fee Schedule Data and Guidelines" header. You will then be required to enter specific search parameters such as service category and GEOZIP.)

Please note that the Fee Schedule pertains to Delaware

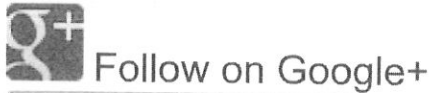

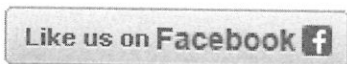

Workers' Compensation claims only, not auto injury claims.

As always, please feel free to contact me, or any of our statewide offices, at 1-800-632-9230 should you have any questions or concerns.

Thank you.

Sincerely,

ERIC M. DOROSHOW
Attorney at Law
